Dr Susan Close MP
Member for Port Adelaide
Unit 1/111 Lipson Street
PORT ADELAIDE SA 5015

Dear Dr Close

RE Freedom of Information - Determination

I refer to your Freedom of Information application received by the Department for Education on 16 August 2018, seeking:

'Any correspondence between the Department for Education and school principals or governing councils regarding Building Better Schools infrastructure projects since March 19, 2018.'

This was clarified via email from your Office on 9 October 2018 to be the above scope in relation to the following schools:

- *Kapunda High School*
- *Gawler and District College B-12*
- *Playford International College*
- *Willunga High School*
- *Mount Compass Area School*
- *Port Lincoln High School*
- *Unley High School*
- *Henley High School*
- *Heathfield High School*
- *Seaton High School*
- *Paralowie School*
- *Reynella East College*
- *Golden Grove High School*
- *Craigmore High School*
- *Kadina Memorial School*
- *Murray Bridge High School*
- *Charles Campbell College*
- *Hallett Cove School*
- *Woodville High School*

Searches have been conducted for information in relation to your request. Forty two documents were located that have been identified as matching the scope of your application. I have considered the documents, with reference to the *Freedom of Information Act 1991* (the FOI Act), and have determined to release the documents to you in full. Please see the attached schedule for more details.

Following a conversation with your Office on 18 September 2018, it was agreed that only a single example of the document "Building Better Schools Letter From the Minister" would be provided, as it was supplied to multiple schools with changes to the addressee details only. This example is documents 41 and 42 of your application.

No costs have been levied for processing of your application as they are within the threshold prescribed by the Fees and Charges Regulations allowed for Members of Parliament.

In accordance with the requirements of Premier and Cabinet Circular PC045, details of your FOI application, a copy of your notice of determination, schedule of documents and the documents to which you are given access, may be published in the agency's disclosure log. A copy of PC045 can be found at <http://dpc.sa.gov.au/what-we-do/services-for-government/premier-and-cabinet-circulars>. If you disagree with publication, please advise the undersigned at education.foi@sa.gov.au within 30 days from the date of notice of determination.

Should you require further information, please contact Freedom of Information on telephone 8226 3231 or email education.foi@sa.gov.au.

Yours sincerely

Chrissie Argitis
ACCREDITED FREEDOM OF INFORMATION OFFICER

Security Classification: For Official Use Only

For Official Use Only

Dear Mr VanRuiten

I am writing to you as a follow up to the letter you received from the Hon John Gardner, Minister for Education, dated 15 May 2018 regarding the rollout of the Building Better Schools (BBS) program and the funding announced for your school's upgrade.

The program will be delivered in conjunction with the Department of Planning, Transport and Infrastructure with three major rounds for design and construction through the delivery of the six year program.

While I appreciate many schools will want to begin their project immediately, the process must be managed carefully to ensure best value is achieved through effective staging to ensure the market is not flooded with demand, which can adversely impact on costs and ultimately the value for money achieved on the school's project.

Schools with secondary enrolments that will require additional accommodation to support the transition of year 7 students into high school have been prioritised in the rollout schedule.

The BBS program team is currently reviewing the existing scoping documents to identify those schools where the transition of year 7 students into high school will impact on the original plans. The consequent development of a detailed project brief for your school will then occur in partnership with you.

Ms Flora Bunn (contact telephone number: 8226 6521), your Capital Projects Manager (CPM) will be in contact with you shortly to discuss the rollout schedule and next steps for your school.

We look forward to working with you on this exciting program.

Yours sincerely

Helen Doyle

Hi Brenda

Following on from an email forwarded to you on Friday 29 June 2018 by Helen Doyle, Director, Capital Programs and Asset Services I wish to advise that your school will be in round 2 of the BBS program and it is anticipated that the architect will be appointed from mid 2019.

In the meantime you are encouraged to work closely with your community to plan your project ahead of the architect being appointed.

I will also be available in the interim as your Project Delivery contact person to provide assistance if required.

If you have any concerns I encourage you to contact the BBS email - DECD.BuildingBetterSchools@sa.gov.au

Hi Brenda

Unley HS is currently in Round 2 and it is anticipated we will be in a position to appoint an architect in mid-2019.

I am on the West Coast tomorrow but can give you a call on Wednesday to talk a bit more about the process.

Regards

Tony Foster

Subject: Seaton HS BBS - SAMIS Plans Usage Mark Up

Hi Richard

Please find attached SAMIS plans for mark up of space usage which will assist me in the preparation of your BSS Project brief.

Thanks and look forward to catching up at the end of next week.

Regards,

Helen Matthews

Subject: BBS SAMIS Plans pse

Good afternoon Caroline

Further to our telephone conversation this afternoon, please find enclosed the SAMIS building plans for Reynella East College.

As mentioned, please mark up on the SAMIS plans the use of each room space, ie. Yr 2 classroom, withdrawal, office etc. This will assist with understanding the functions of each building.

It would be great if you could return the SAMIS plans to me at your earliest convenience, thank you.

Congratulations once again for being in Round 1 of the BBS Program.

Looking forward to our meeting on Wednesday 25 July.

Regards, K

Karen Erlandsen

For Official Use Only

Dear Mr George

I am writing to you as a follow up to the letter you received from the Hon John Gardner, Minister for Education, dated 15 May 2018 regarding the rollout of the Building Better Schools (BBS) program and the funding announced for your school's upgrade.

The program will be delivered in conjunction with the Department of Planning, Transport and Infrastructure with three major rounds for design and construction through the delivery of the six year program.

While I appreciate many schools will want to begin their project immediately, the process must be managed carefully to ensure best value is achieved through effective staging to ensure the market is not flooded with demand, which can adversely impact on costs and ultimately the value for money achieved on the school's project.

Schools with secondary enrolments that will require additional accommodation to support the transition of year 7 students into high school have been prioritised in the rollout schedule.

The BBS program team is currently reviewing the existing scoping documents to identify those schools where the transition of year 7 students into high school will impact on the original plans. The consequent development of a detailed project brief for your school will then occur in partnership with you.

Mr Tony Foster (contact telephone number: 8226 1706), your Capital Projects Manager (CPM) will be in contact with you shortly to discuss the rollout schedule and next steps for your school.

We look forward to working with you on this exciting program.

Yours sincerely

Helen Doyle

Hi Greg and Todd

There still isn't a great deal to advise about BBS other than that PLHS will be in Round 1 and that a letter is due to be sent by the Minister in the near future.

I am the Project Officer assigned to this project and will be looking to contact you soon for preliminary discussions. The original scope will need to be reviewed particularly due to the year 7 students transitioning to high schools. Obviously one of the key elements is the built capacity of PLHS.

I will be in Port Lincoln next Tuesday 3 July for a STEM Works Project Control Group meeting. Todd, is it possible for you to be available for a short while following the PCG meeting to get the ball rolling for BBS and Greg would it be possible to join us for a conference call so that we can all hear any information at the same time?

Alternatively, Todd if you are going to be in Adelaide in the near future I could meet with you and Greg in the city.

I will be out of the office in the South East until Thursday afternoon of this week but hopefully we can tee something up.

Could you please let me know what arrangements may suit you.

Hi Greg and Todd

There still isn't a great deal to advise about BBS other than that PLHS will be in Round 1 and that a letter is due to be sent by the Minister in the near future.

I am the Project Officer assigned to this project and will be looking to contact you soon for preliminary discussions. The original scope will need to be reviewed particularly due to the year 7 students transitioning to high schools. Obviously one of the key elements is the built capacity of PLHS.

I will be in Port Lincoln next Tuesday 3 July for a STEM Works Project Control Group meeting.

Todd, is it possible for you to be available for a short while following the PCG meeting to get the ball rolling for BBS and Greg would it be possible to join us for a conference call so that we can all hear any information at the same time?

Alternatively, Todd if you are going to be in Adelaide in the near future I could meet with you and Greg in the city.

I will be out of the office in the South East until Thursday afternoon of this week but hopefully we can tee something up.

Could you please let me know what arrangements may suit you.

Regards

Tony Foster
Project Officer

Rob

Dear Mr Knight

Thank you for your email to Rick Persse regarding additional capital funding options for Playford International College. As the matters raised fall within my responsibility as the Executive Director, Infrastructure, Rick has asked me to thank you for your correspondence and respond on his behalf.

As discussed, we acknowledge your strong desire to expand your school beyond the \$12.8 million collectively approved through three capital upgrades including Science, Technology, Engineering, Mathematics (STEM) Works and the Building Better Schools (BBS) program. As advised previously it is not possible to increase the amounts to schools beyond their initial allocations provided as part of the BBS program and STEM Works.

I can advise that additional transportable accommodation is available to a school that is experiencing proven enrolment pressures once a number of enrolment management steps have been taken, and acknowledge the demographic growth forecast for the northern suburbs.

In terms of further capital funding options available to you, you may wish to consider the following programs:

Capital Works Assistance Scheme - whereby governing councils may seek financial support through a loan to assist in providing approved educational facilities for their schools.

The Voluntary Amalgamations Program - whereby 100 per cent of the market value of the vacated property's value will go to a merged school in advance of the sale. This money will then be used exclusively by the new school to improve facilities. If the school site sells for more than market value, the excess funds will be retained by Government. Merged schools will also receive the equivalent of up to three years of savings made as a result of the amalgamation, which may be used to further improve their facility.

I am not aware of other funded programs available but will be happy to discuss the Capital Works Assistance Scheme and Voluntary Amalgamations Program in more detail should you require further information. We don't hold a priority waiting list for major works, as Capital Works programs are developed in accordance with government policy through the Asset Master Plan.

Please contact me should you wish to discuss further. I look forward to visiting your school as the upgrades are delivered.

Yours sincerely

Hi Rob,

Sorry for the late response, I was on site all last week.

I was advised that PIC currently have 1078 active students in CEDS. FLO students are still enrolled with a status of 'Active'. You also have a small number of other enrolments that don't usually get included in the count (eg. Future, homeschool etc), but that is still less than 20. The data for PIC has been loading in successfully.

I am not sure why there is a discrepancies between our enrolment number and yours. Can you please provide us with more information about who you think we are missing?

August census is coming up in three weeks so if you want extra students included, now is the time to update your EDSAS.

Thanks
 Mai

For Official Use Only

Hi Rob,

As per our conversation, one of the program's key priorities will be to support the transition of Year 7 into high school by providing additional student accommodation where required. Remaining funds will be used to support the department's other key objectives which were announced in October 2017 including:

- o refurbishing existing accommodation to deliver modern learning areas
- o increasing capacity where required

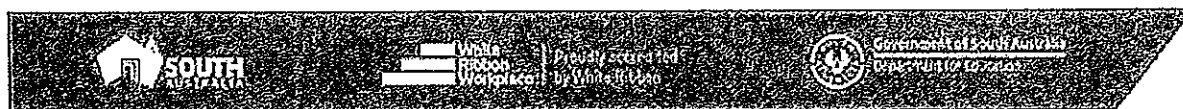

- removing old relocatable or modular classrooms
- landscaping and upgrades of the street frontage
- removing asbestos.
- The department will prioritise work to begin over three rounds, with the transitioning of year 7 to be in place by the beginning of 2022.
- High schools that do not have the immediate ability to accommodate Year 7 will be prioritised in early rounds. Subsequently, the majority of primary school projects will take place in the latter rounds.
- Schools selected for Rounds 2 and 3 are encouraged to work closely with their communities to plan their projects ahead of an architect being appointed.
- Architects for Round 2 are expected to be appointed from mid-2019, with Round 3 appointments scheduled to commence in mid-2020.

Your school is earmark to be in Round 2, however, if you have any concerns please contact the BBS email (DECD.BuildingBetterSchools@sa.gov.au)

In regards to your request to get the capacity and required built for 2028, the Zoning and Capacity team has done a capacity analysis on each school, however a decision has been made by the Department to engage an external demographer to check those numbers and ensure they are supported. It is anticipated that by August, the numbers will be released to the schools.

Regards
Mai

Dear Ms Mussger

I am writing to you as a follow up to the letter you received from the Hon John Gardner, Minister for Education, dated 15 May 2018 regarding the rollout of the Building Better Schools (BBS) program and the funding announced for your school's upgrade.

The program will be delivered in conjunction with the Department of Planning, Transport and Infrastructure with three major rounds for design and construction through the delivery of the six year program.

While I appreciate many schools will want to begin their project immediately, the process must be managed carefully to ensure best value is achieved through effective staging to ensure the market is not flooded with demand, which can adversely impact on costs and ultimately the value for money achieved on the school's project.

Schools with secondary enrolments that will require additional accommodation to support the transition of year 7 students into high school have been prioritised in the rollout schedule.

The BBS program team is currently reviewing the existing scoping documents to identify those schools where the transition of year 7 students into high school will impact on the original plans. The consequent development of a detailed project brief for your school will then occur in partnership with you.

Ms Flora Bunn (contact telephone number: 8226 6521), your Capital Projects Manager (CPM) will be in contact with you shortly to discuss the rollout schedule and next steps for your school.

We look forward to working with you on this exciting program.

Yours sincerely

Helen Doyle

Hi Ruth

You should be receiving a letter shortly re: the Building Better Schools project, and seeing that I am up at Murray Bridge HS for the STEM PCG meeting on Tuesday 19 June, I was hoping to meet with you and Bryce to discuss BBS.

The initial meeting is to discuss the proposed BBS scope and I may even undertake a capacity analysis of the site if required.

Greenway architects are not required for this meeting.

Looking forward to catching up next week.

Feel free to call me if you have any questions prior to the meeting.

Subject: BBS SAMIS plans [DLM=For-Official-Use-Only]

For Official Use Only

Good afternoon Kevin

Further to our telephone conversation this afternoon, please find enclosed the SAMIS building plans for Mount Compass Area School.

As mentioned, please mark up on the SAMIS plans the use of each room space, ie. Yr 2 classroom, withdrawal, office etc. This will assist with understanding the functions of each building.

It would be great if you could return the SAMIS plans to me at your earliest convenience, thank you.

Congratulations once again for being in Round 1 of the BBS Program.

Looking forward to our meeting on Tuesday 24 July.

Regards, K

Karen Erlandsen

Hi Sue,

I have managed to have a good break - albeit some issues with intruders into our school last week.

Any day in Week 2 would be fine apart from Tuesday, July 31 when I am off site.

Kind regards,

Kristen

Hi Kristen,

I hope you managed to enjoy some time off over the school holidays and are ready for the start of term 3.

To commence the Building Better Schools project, a meeting on site will be helpful. Do you have some time available in week 2 to discuss the project and for me to undertake an inspection of the site.

Let me know what day is most suitable and if you prefer mornings or afternoons.

Regards,

Sue Hodge

Subject: Kapunda HS BBS [DLM=For-Official-Use-Only]

For Official Use Only

Hi Kristen,

Round one of the Building Better Schools program has now been confirmed with your school being included.

The program focus still remains the same as was first announced:

- demolition of aged relocatable accommodation and/or lightweight modular facilities where appropriate
- new buildings to provide additional accommodation in identified growth areas
- refurbishment of existing infrastructure to provide flexible, contemporary learning spaces
- improved street presence and connectivity to the community to make a positive statement about public education

- removal of asbestos

With the inclusion of year 7 students into high schools, this will add further pressure at Kapunda High school and possibly require more learning areas than proposed in the scoping exercise.

I have attached the SAMIS drawings for the existing buildings. Would you please arrange for someone to mark up each space with its current use, i.e. art, or general learning , and return to me when possible.

I will be in touch soon to make a time to meet to discuss the project further.
If you have any questions, please feel free to give me a call.

Regards,

Sue Hodge

Hi Kristen,

With the change of government the scoping studies undertaken last year are being reviewed. The SA Government has committed to continue the roll-out of the BBS program with the key priority being transition of year 7 students to secondary schools.
Once we have been advised of the BBS program I will let you know what is planned.

We have been advised that further information will be provided in term 2.

If there is any delay, we may need to proceed with the other \$2m project separately to assist with your enrolment pressures.

Hi Kristen,

I have attached a copy of the proposed brochure for your BBS project for you to review.

If you are happy with the content could you please let me know by return email. Sorry for the tight timeline but I have been advised that if a response is not received to assume that you are happy to proceed. It is expected that the final brochure will be included on the DECD website sometime next week at which stage you are welcome to share with the wider school community.

Please feel free to give me a call if you have any questions.

Hello Helen

I received this letter from our minister and local member.

Can you update me on how I might progress some of our projects?

My short term goal in order of need is the four classrooms, some more stem space and update science and Home Ec space with canteen.

Dear Ms Asikas

I am writing to you as a follow up to the letter you received from the Hon John Gardner, Minister for Education, dated 15 May 2018 regarding the rollout of the Building Better Schools (BBS) program and the funding announced for your school's upgrade.

The program will be delivered in conjunction with the Department of Planning, Transport and Infrastructure with three major rounds for design and construction through the delivery of the six year program.

While I appreciate many schools will want to begin their project immediately, the process must be managed carefully to ensure best value is achieved through effective staging to ensure the market is not flooded with demand, which can adversely impact on costs and ultimately the value for money achieved on the school's project.

Schools with secondary enrolments that will require additional accommodation to support the transition of year 7 students into high school have been prioritised in the rollout schedule.

The BBS program team is currently reviewing the existing scoping documents to identify those schools where the transition of year 7 students into high school will impact on the original plans. The consequent development of a detailed project brief for your school will then occur in partnership with you.

Ms Flora Bunn (contact telephone number: 8226 6521), your Capital Projects Manager (CPM) will be in contact with you shortly to discuss the rollout schedule and next steps for your school.

We look forward to working with you on this exciting program.

Yours sincerely

Helen Doyle

Hi Mary

Hope all is well.

Next week on Wednesday 27 June I will be attending the STEM PCG at the school (9am meeting) and was hoping you will be available after the meeting to catch up so I can provide you with a status update of the BBS project.

We will be discussing the proposed project brief and criteria which will take approx. an hour.

At this stage I only need to meet with yourself and Wendy, there is no requirement for the architect to attend.

Will you be available approx. 10:30am after the STEM meeting?

Kind Regards

Flora Bunn

Importance: High

Security Classification:
 For Official Use Only

For Official Use Only

Hi Wendy,

Following on from an email forwarded to you on Friday 29 June 2018 by Helen Doyle, Director, Capital Programs and Asset Services I wish to advise that your school will be in round 3 of the BBS program.

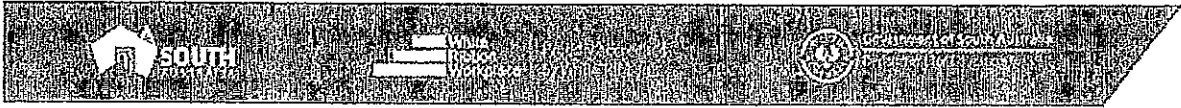

One of the program's key priorities will be to support the transition of Year 7 into high school by providing additional student accommodation where required. Remaining funds will be used to support the department's other key objectives which were announced in October 2017 including:

- o refurbishing existing accommodation to deliver modern learning areas
 - o increasing capacity where required
 - o removing old relocatable or modular classrooms
 - o landscaping and upgrades of the street frontage
 - o removing asbestos.
- The department will prioritise work to begin over three rounds, with the transitioning of year 7 to be in place by the beginning of 2022.
 - High schools that do not have the immediate ability to accommodate Year 7 will be prioritised in early rounds. Subsequently, the majority of primary school projects will take place in the latter rounds.
 - Schools selected for Rounds 2 and 3 are encouraged to work closely with their communities to plan their projects ahead of an architect being appointed.
 - Architects for Round 2 are expected to be appointed from mid-2019, with Round 3 appointments scheduled to commence in mid-2020.

I will be available in the interim as your Project Delivery contact person to provide assistance if required and if you have any concerns please contact the BBS email (DECD.BuildingBetterSchools@sa.gov.au)

Regards
 Mai

Hi Kate

Andrew says
 Thanks Kate

Note that the functional capacity audit was undertaken in 2014, showed we had extra capacity in science + D + T but slightly under in the gym facilities.

Please also note: STEM works will bring changes to our SAMIS plans when they are completed.

For the purposes of BBS planning it would be beneficial to include the STEM works upgrades. The number of GLAS + activity rooms that have changed are attached.

We would expect an increase of approx.. 120 students with year 7's (we already have 2 year 7 classes)

I look forward to meeting you next Wednesday. Kind regards Andrew Dickinson

Hi Cindie,

Thanks for re-booking my meeting today.

As I mentioned, to assist with some of the discussion around capacity requirements and the BBS project, I've attached some marked up SAMIS plans to be reviewed and if possible, could any additional comment or corrections around the current use of space at the school be provided back to me?

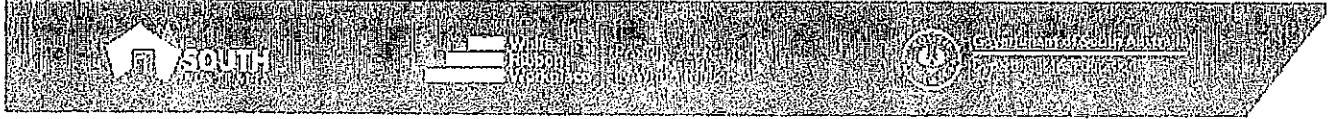

It would be great if I could get any comment or changes by noon Tuesday next week that would be great, this will allow me to do some rough calculations prior to Wednesday.

I appreciate it's a busy week given it's the final of the term, so if it can't be done then happy to discuss the use of space at the school during the meeting.

Many thanks,
 Kate

Hi Julie

Hopefully you recall me mentioning to you that we are exploring the possibility of shared facilities (gym) with Gawler Council in conjunction with our BBS funding.

We have a meeting to discuss the matter further with Gawler Council on Monday 16 April @ 11:15 am here at GDC.

If possible could you attend (or arrange for a suitable proxy) to help explore the idea?

I'll send through a meeting request with the details if this date works for you.

Kind regards

Andrew

Hi Connie,

As mentioned this morning, Round one of the Building Better Schools program has now been confirmed with your school being included.

I am the Capital Projects Manager that will be managing the project.

The program focus still remains the same as when first announced:

- demolition of aged relocatable accommodation and/or lightweight modular facilities where appropriate
- new buildings to provide additional accommodation in identified growth areas
- refurbishment of existing infrastructure to provide flexible, contemporary learning spaces
- improved street presence and connectivity to the community to make a positive statement about public education
- removal of asbestos

The main focus for the program now will also address the inclusion of year 7 students into high schools which may add capacity pressure in the future.

I have attached the SAMIS drawings for the existing buildings. Would you please arrange for someone to mark up each space with its current use, i.e. art, or general learning, and return to me when possible.

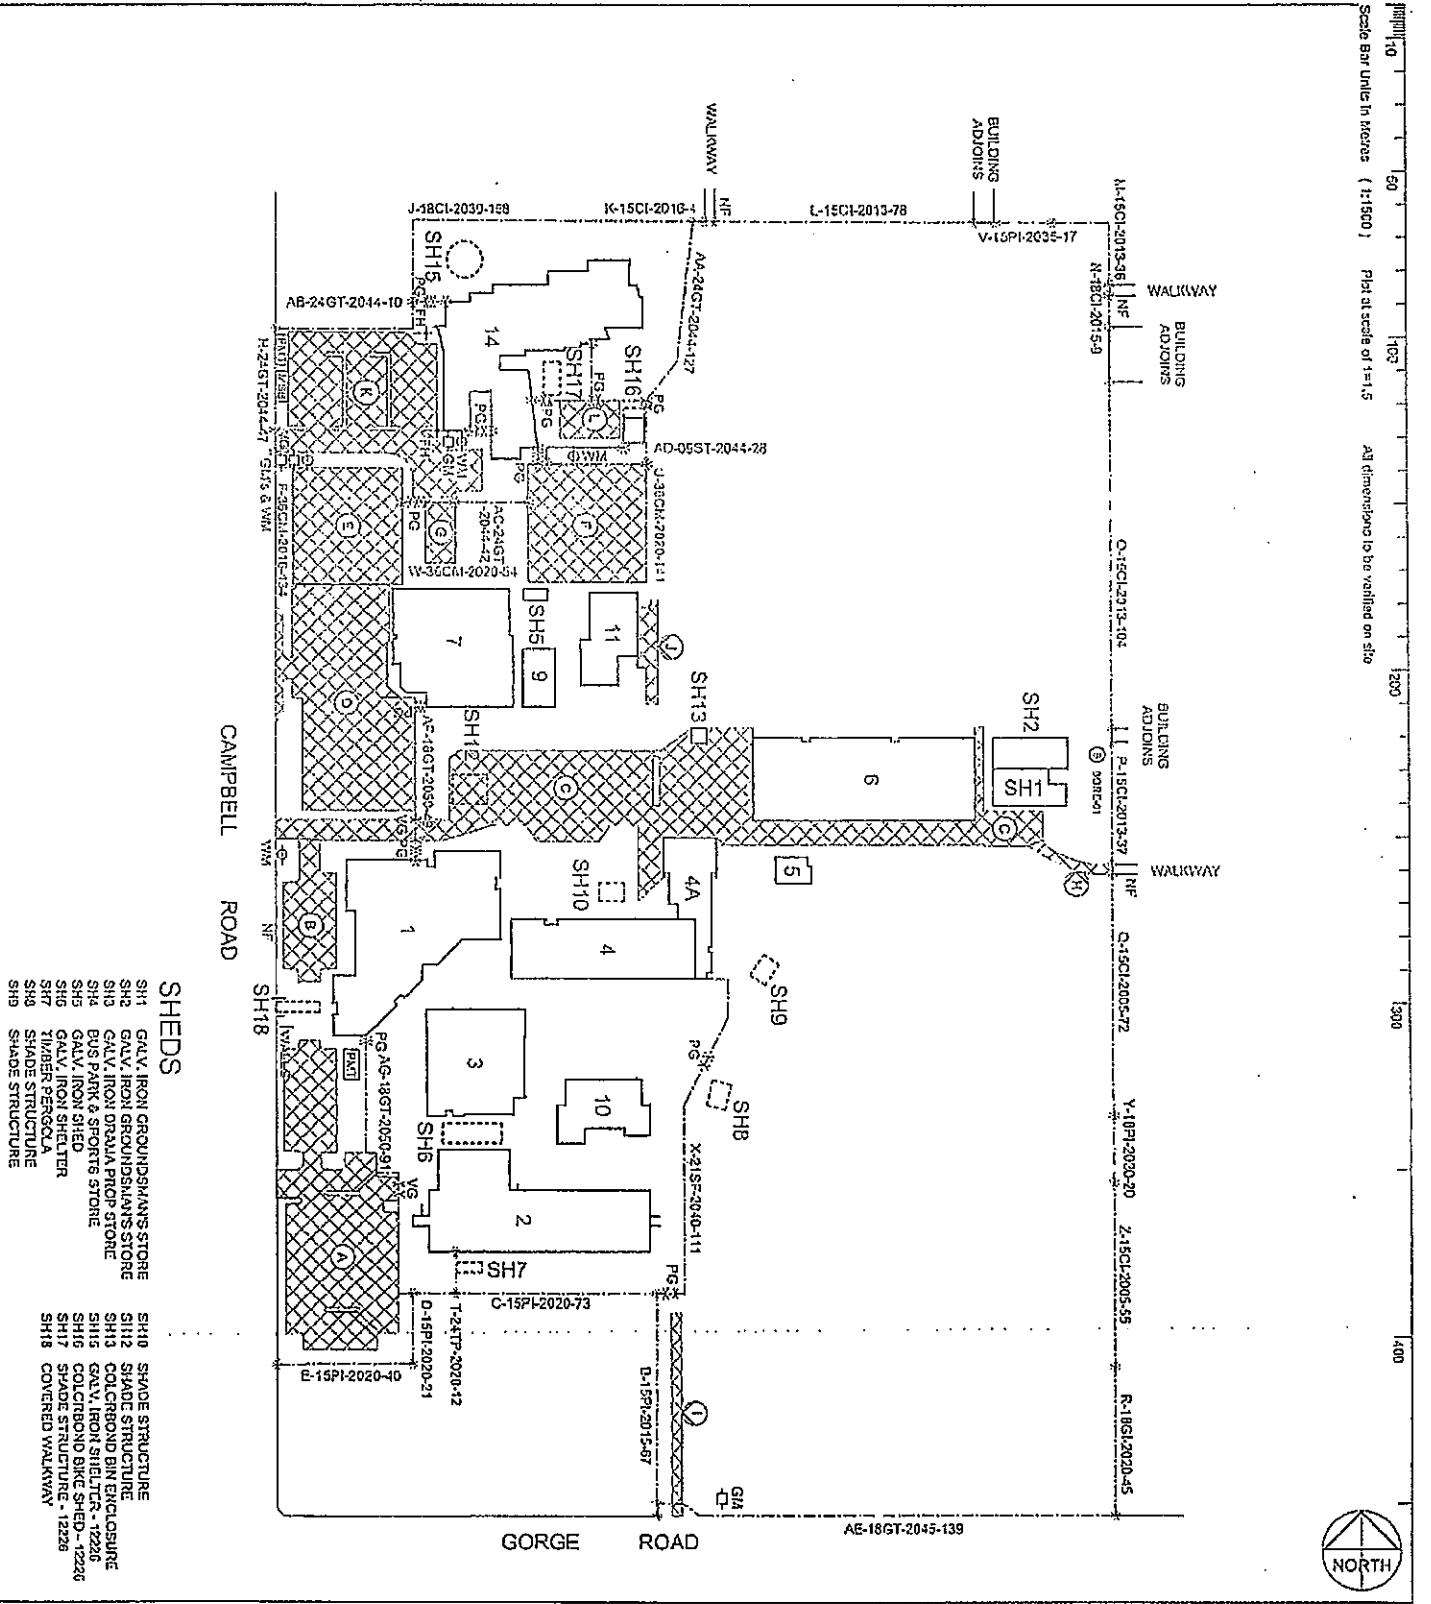

I look forward to meeting with you on the 26th July.
 If you have any questions, please feel free to give me a call.

Regards,

Sue Hodge

Dear Principal

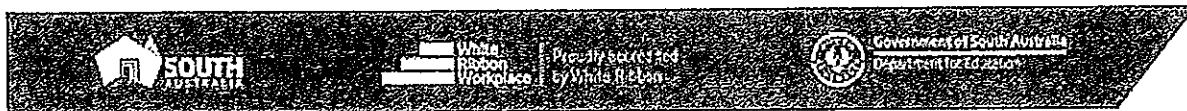

Attached is a copy of a letter from the Minister for Education, Hon John Gardner MP, regarding your school's Building Better Schools (BBS) project.

A hard copy of the letter will be placed in the post this afternoon and should reach you in the next few days.

Should you have any questions arising from this correspondence, please contact the officer from Department for Education appointed to oversee your BBS project.

Yours sincerely

Christina Hassiotis

Dear Principal

I am delighted to advise that funding for your school's Building Better Schools upgrade is confirmed, as promised by the Liberal government prior to the state election.

The Building Better Schools program is upgrading facilities at 91 schools, providing our students with the best in contemporary learning environments and teaching spaces. A member of the department will contact you in the near future to discuss the scope of your upgrade, to ensure that the project at your school is geared to maximise benefits for learning outcomes and meeting your school's needs, mindful of future enrolment expectations.

Ensuring our schools are set up to deliver a quality education will support our young people to achieve their potential. We all share a bold ambition for our education system to be the best in the country and the Building Better Schools program will play a role in delivering that ambition.

I take this opportunity to thank you once again for the critical leadership role that you fulfil at your school.

Yours sincerely

A handwritten signature in black ink, appearing to read 'John Gardner'.

Hon John Gardner MP
Minister for Education
